Spring 2014

ADVANTAGE 

Troxell Throughout The School

Troxell Communications has solutions for every room in a school. From classrooms to auditoriums, sports stadiums to computer labs, cafeterias to TV studios, we offer technology that empowers students and accelerates learning.

Troxell has more than 60 years of experience providing complete technology solutions for education. Headquartered in Phoenix, Arizona, with more than 60 offices nationwide, Troxell has local Account Executives who are unmatched in product knowledge and personalized customer service. They can provide on-site expertise for every area of your school.

Troxell offers a vast selection of products from leading manufacturers, and solutions including design, integration and installation. Whether you are updating one room, or standardizing an entire district, Troxell partners with you to ensure the best quality technology solutions at prices to fit your budget, backed by our outstanding service and support.

On the following pages, you will find a selection of the products and manufacturers we represent, categorized based on the areas in a school in which they may be used. Contact us for more information or to provide a fast, convenient bid or quote.

Achieve Your 1:1 Goals Easier and Faster with Troxell

Troxell’s 1:1 Learning Suite has a customizable solution for every customer, addressing every element of mobile learning at the right price. Our complete 1:1 product offering and our 60+ local Account Executives nationwide can help you select the right device and also handle the details to make sure your deployment will go smoothly.

Troxell’s solution includes many of the industry leaders: All brands of tablets and Chromebooks including Acer, Samsung, Asus, Toshiba, HP and Lenovo, Google Management as well as a long list of accessory and peripheral partners like Aver, Balt, Califone, Max Cases, Hapara, etc. We can simplify your 1:1 solution by providing trusted leasing, assembly and configuration (aka “white glove”) services not to mention extended warranties.

Make Troxell your number one source for 1:1 and mobile learning solutions in your district!

Installation Services

Troxell has a national network of experienced Installers that work with our Account Executives to provide professional and reliable installations. From simple projector and screen installations, to large and complex integration projects, a call to your Account Executive will launch the process, from walk-thru to competitive quotation. All Troxell install partners are licensed and insured in the state in which they do business.

A few examples of the services Troxell can provide:

- Projector/flat panel display mounting
- Classroom amplification system installation
- Interactive whiteboard installation
- Control system installation including programming services
- Digital signage solutions

Freight and Price Statement:*
Certain “freight intensive” items might require additional shipping costs due to their size and weight. Free ground freight does not apply for shipments to Alaska and Hawaii. Pricing and model information found in this catalog is subject to change. Please contact your Troxell Account Executive for more details or to get a freight quote, or visit www.etroxell.com.

Broadcast
Push announcements, scheduled bells, & audio-visual alerts to different zones — usually via edRoom™ systems

Control
Control doors, HVAC, and other systems as a matter of routine or in case of emergencies

Talk
Conduct intercom calls

Respond
Let first responders communicate with rooms from outside the building

ADMINISTRATOR STATION

NETWORKED AUDIO ENCODER/DECODER

NETWORKED AMPLIFIER/CONTROLLER

UNIVERSAL TELEPHONE INTERFACE CONTROLLER

FrontRow Conductor™ Communication System
From daily bells to emergency alerts, network-based FrontRow Conductor puts front office staff in control.

Conductor Integrates All Audio Communications and Control
Imagine being able to adjust bell schedules with the click of a mouse. Imagine being able to use audio and video to alert every classroom about a coming tornado. FrontRow Conductor is a modern networked based paging, bell, and intercom system. Being a network based system makes it very easy to manage - so easy that a school can make changes themselves without having to call in outside help!

Conductor combines an easy-to-use Windows® interface, an enterprise-class audio and device management server, and robust streaming audio hardware to deliver audio where and when it's needed. You get a secure and reliable school-wide communications platform that integrates all audio — scheduled, live or recorded — and provides complete flexibility to meet changing needs.

- Typical Package**
- CONDUCTOR SOFTWARE
 - ADMINISTRATOR STATION
 - NETWORKED AUDIO ENCODER/DECODER
 - NETWORKED AMPLIFIER/CONTROLLER
 - UNIVERSAL TELEPHONE INTERFACE
